Parks & Rec Scavenger Hunt Week 2- Habitats

Please always remember to respect nature. Keep your distance from wildlife and do not disturb nesting birds or baby animals. Don't forget to always do a thorough tick check after being outdoors!

Visit 3-5 different natural habitats (where plants or animals live, for example: pond, forest, field, meadow, lawn, river, stream, canopy, leaf litter, etc.) and record 3 different plants and/or animals you find in or around each one. Bonus: Take a photo of each habitat you visit. **Kids, always be sure to have an adult with you anytime you are exploring around water! Safety is always first!*

Habitat #1 _____

1. _____

2. _____

3. _____

Habitat #2 _____

1. _____

2. _____

3. _____

Habitat #3 _____

1. _____

2. _____

3. _____

Habitat #4 _____

1. _____

2. _____

3. _____

Try to find each of the following in your habitat hunt. Beginners, find the first five items, Intermediates find everything on the beginner and intermediate lists, and advanced, find all 15! Take photos if you can! Have fun!

Beginner

☐ Beaver lodge

☐ Turtle basking on a rock or log

☐ Bird nest

☐ Butterfly

☐ Singing Bird

Intermediate

☐ A Swallow catching flying insects

☐ Mushroom

☐ Frog

☐ Woodpecker holes

☐ Chewed beaver log

Advanced

☐ Muskrat lodge

☐ Crayfish

☐ Millipede

☐ Ovenbird

☐ Bobolink
